

## PRODUCE OF POLAND

Laskowsky Design is a Polish company that designs and produces original light-weight furniture and household accessories. Blurring the lines between art and design, the unique products by artist and designer Remigiusz Laskowski range from tables, shelves, clocks and mirrors to hangers, ornaments and kitchen accessories all designed with flair and passion.

The beautiful products are made from powder-coated stainless steel and feature intricate patterns and motifs that have been laser-cut out of the material. The decorative and often whimsical designs help to add intrigue and mystery to any interior in which they feature. Now available in the UK, these tempting treats can be acquired from the exclusive UK distributor Muslavi Gallery.

## HIDE & SEEK

Part of the destinations range of wallpapers by Mr Perswall, Secret Cities is a large-scale mural which will provide kids and adults alike with hours of fun as they search for the city names hidden amongst the letters in this oversized word search.

Suitable for kitchens, hallways, kids bedrooms or even the lavatory, this paper strikes a chord with everyone who has had the pleasure of travelling and makes that big wide world seem just that little bit smaller. Available in the UK from Wallpaper Direct.

## THINKING OUTSIDE THE BOX

Presented at the Wallpaper Handmade Exhibition in Milan last year, the Drawer Kitchen is a concept design by London designer Gitta Geschwendtner. The kitchen island is comprised of a pile of drawers and a sink and was designed for Italian kitchen company Schifffini.

From three sides the unit appears to be a series of stacked boxes in varying sizes. The drawers are all functional and can be opened simultaneously to give a very dynamic appearance to the unit. The Drawer Kitchen is designed to be positioned in an open plan kitchen/dining area.
